Target organization.

I chose a hypothetical company, a company i call Bright Morning Bakery

Project goals:

The goal is to create a functional and visually appealing website for the company

Planning and Research

Organization overview.

Bright Morning Bakery was established in the year 2022. The company employs 15 people and operates its business from Malamulele township in the province of Limpopo. The bakery sells its products to the residents and the businesses that operate in this township. The owner of the business wants to sell the products of the company to people who live outside of his village and decided to have a website to be able to market his business.

Goals and Objectives of the website

The goal of the website is to market the products and services that they offer. The company also wants their customers to use the website to order products.

Proposed features and functionality

Features- fast loading speed

Responsive Design

Mobile friendly

High quality content

Functionality-tools to search products in our website

Order products through the website

Design and user experience

Define the problem and goals

Before designing the website, I had to decide on what the site had to accomplish and my target market.

I then designed the logical steps

I designed the prototype and test with the users

Technical requirements

I will use the visual studio 2022-ASP.NET CORE Empty to code my application

CSS to style the contents of my website

JavaScript to add interactivity and dynamic functionality to my website.

Timeline and milestones

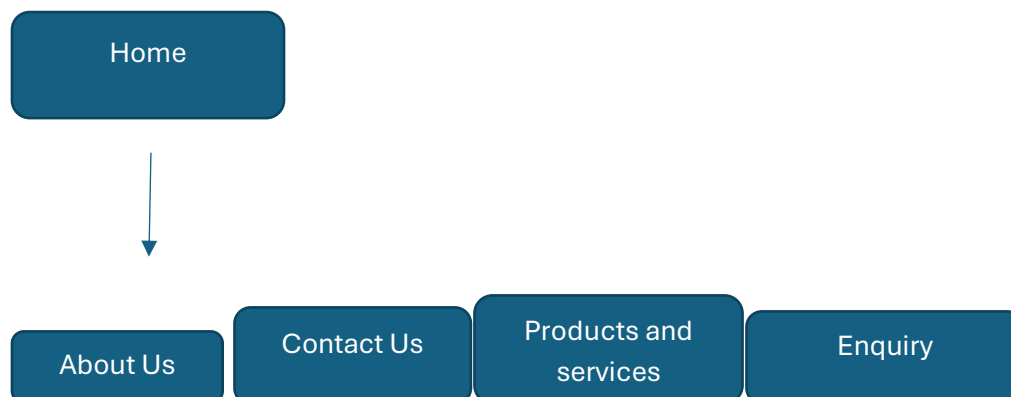

phase	Task	Estimated time
Design	Wireframes and mockups	1 week
Design	Visual design elements	3 days
Development	Front end development	1 week
Development	Back-end development	1 week
Testing	website	4 days
Deployment	Website launch	2 days

Budget

Estimated budget R 6 000
